Control of Substances Hazardous to Health
(C.O.S.H.H) POLICY

This policy will be used as a foundation on which we will ensure that we support the above-mentioned legislation through training, systems and procedures and with a process that can be measured and monitored enabling continual Improvement.

As a company we will

- Request information from suppliers and pass this on to all those affected by or whom may come into contact with those product/s
- Strive to only use alternative substances and products that are not harmful to health by where possible replacing chemicals with natural water based products and by using considerate methods to apply these products
- Provide data and assessment information for our employees and customers
- Through systems and procedures reduce environmental impact damage
- Reduce waste by recycling materials where possible

We as Employers, will:

- Continually strive to improve awareness to all of our employees
- Support our clients in their policy and legal objectives and obligations
