

## **ENVIRONMENTAL POLICY**

**This policy is our commitment to the environment. We will use this policy as a foundation to support our systems and procedures and as a contract to our environment. We will through policy, procedures and training show our commitment to complying with Legislation and Preventing Pollution.**

**We will measure and monitor enabling continual improvement and environmental excellence throughout our working practices.**

### **We as a company will**

- So far as is reasonably practical, use environmentally considerate methods and materials to fulfil our personal and contractual obligations.
- Support our clients systems and procedures and support them by providing product and design solutions that reduce or eliminate environmental damage.
- Guarantee to take particular care in all operational and associated works.
- Reduce waste by recycling materials where possible
- Conduct our activities ensuring that we protect and eliminate damage to the environment

### **We as Employers, will:**

- Continually strive to improve awareness to all of our employees
- Support our employees in there working practices
